**AMICA A+AB RATED AWCN14D  
NAVIGATOR WASHING MACHINE**

**£329**

The Amica A+AB rated AWCN14D Navigator washing machine boasts a whole range of hi-tech specs for simple programming and superb wash results.

Intelligent appeal: The 60dB(A) machine features intuitive digital electronic controls with a multifunctional LCD display navigator, sensor washing for reduced water consumption along with an anti-bacterial system. In addition, the 33cm-wide porthole and 180° hinged door sit higher and allow for easier loading and unloading, while the 6kg drum contains some 3,000 holes for more thorough washing. The drum is also tilted by 5°, further aiding the washing process by achieving a more effective 3D wash that avoids clothes spinning around in perfect circles.

For delicate care and improved water expulsion from fabrics, the model boasts adjustable spin speeds in 100RPM intervals from 0-1400RPM. There are 20 programmes including a super-short 19-minute wash, an eco function and easy-iron setting.
